Face massage with oil can have many benefits for your skin. It can improve blood circulation, promote lymphatic drainage, and help to relax facial muscles. It can also help to hydrate and nourish your skin, leaving it looking and feeling soft and smooth.

Facial massage with cream can help to reduce puffiness and dark circles under the eyes, help to increase hydration in the skin, which can make it look plumper and more youthful, help to improve the texture of the skin by reducing the appearance of fine lines and wrinkles. Using cream may create more heat while oil may be more cooling for some.
